“We are excited for the opportunity that the CIM Convention offers, meeting with over 5,000 industry professionals in the Canadian mining marketplace,” said Frank–Olaf Maehling, Industrial Global Product Manager for Evonik. “Evonik’s technology brands offer maximum equipment productivity, better fuel economy and more power to the equipment vital to keeping the mining industry running.”

As a leading provider of oil additives, Evonik develops and provides technologies like DYNAVIS® for hydraulic fluids in mining, construction and manufacturing applications, and NUFLUX™ for industrial oils used in industrial gears and wind turbines.

For more information on Evonik, visit booth #1825 while attending CIM Convention, or visit www.evonik.com/oil-additives.

Company information

Evonik, the creative industrial group from Germany, is one of the world leaders in specialty chemicals. Profitable growth and a sustained increase in the value of the company form the heart of Evonik’s corporate strategy. Its activities focus on the key megatrends health, nutrition, resource efficiency and globalization. Evonik benefits specifically from its innovative prowess and integrated technology platforms. In 2017, Evonik’s more than 34,500 employees generated sales of around €14.4 billion and an operating result (adjusted EBITDA) of €2.36 billion.

Evonik offers a wide range of additives and synthetic base oils for the lubricant industry under its tradenames VISCOPLEX® and VISCOBASE®. VISCOPLEX® and VISCOBASE® are a trademark of Evonik Industries AG. All other trademarks are the property of their respective owners.

About Resource Efficiency

The Resource Efficiency segment is led by Evonik Resource Efficiency GmbH and supplies high performance materials for environmentally friendly as well as energy-efficient systems to the automotive, paints & coatings, adhesives, construction, and many other industries. This segment employed over 10,000 employees, and generated sales of around €5.4 billion in 2017.
